# Welcome to Junior DPS

Here at Junior DPS play School we have:

- ✧ A Welcoming School, where all pupils and families can feel part of our community
- ✧ A Safe School, where all pupils, staff and families feel safe in our environment
- ✧ A Positive Learning Environment School where every teacher has the right to teach and every child has the right to learn.

We know your child will settle in happily and quickly  
because the staff and pupils at our school  
are so friendly and welcoming.

Our Prospectus will help you, as one of our new families to understand what happens at Junior DPS. We hope you will feel free to contact the class teacher, your child's Syndicate Leader or myself if you are at all concerned about your child. Your child will be well taught by excellent staff at Junior DPS, and will learn in a warm, secure, safe environment.

### PERFORMANCE MANAGEMENT

- ▶ Staff/Board development.
- ▶ Performance management system.

## LITERACY

All students are successfully able to access the Junior DPS curriculum as evidenced by achievement in relation to the Junior DPS standard in reading and writing with particular focus on children utilizing a variety of reading strategies to access meaning across the curriculum.

## SCIENCE

All students are successfully able to access the Junior DPS curriculum as evidenced by achievement in relation to the Junior DPS curriculum with particular focus - on using our learn to learn model to investigate the four strands.

## JUNIOR DPS CLASSROOM AREAS

### LANGUAGE ARTS

Language Arts builds on the foundation laid in Preschool . This sets the stage for the children to master skills such as reading, writing, spelling, dictionary skills, poetry, penmanship and handwriting, and parts of speech and grammar. Each skill builds to another and forms a solid base which leads to ease of integration with other subjects. Writing a research project on whales or explaining how math equation is worked out is easily achieved as a result.

### MATHEMATICS

There is nothing in our world that does not in some way relate to mathematics. Being able to apply mathematic skills in other areas such as language, art and sensorial are most beneficial. The four operations are taught (addition, subtraction, division and multiplication) in detail building on skills learned in preschool.

### MORAL EDUCATION

Moral education means an ethical education to follow the good and right principles of life. It consists of some basic principles, like truthfulness, honesty, charity, hospitality, tolerance, love, kindness and sympathy. Moral education makes one perfect. Education is not aimed at obtaining only a degree. Moral education can be imparted in a better way by examples and not by precepts.

### FIVE GREAT LESSONS/ COSMIC EDUCATION/ PEACE

The Five Great Lessons are designed to provide an understanding of the history of the universe with a focus on humankind's place in the continuing story. The lessons are divided into five unique parts: A. The Story of the Universe; B. Life Comes to Earth; C. The Coming of Humans; D. The Story of Writing (language); E. The Story of Numbers (mathematics). Cosmic education in the Montessori curriculum sets the stage to develop more caring and peaceful citizens.

## EXTRA CURRICULAR ACTIVITIES FOR JUNIOR DPS SCHOOL

Extra curricular activities aren't just for teens or college students. The many benefits of extracurricular activities, including making new friends and pursuing physical interests, apply to play school children, too. If your grade-schooler is willing to explore his/her interests beyond the classroom, he/she can choose from an array of extracurricular activities.

### SPORTS

For true integrated growth to take place, our children's physical self must be systematically developed. Sports facilities including indoor games and outdoor sports is an integrated part of our EXTRA Curricular Activities.

### ARTS ACTIVITIES

The visual arts such as painting or drawing, along with the performing arts such as drama, dance and music, are creatively fun extracurricular activities that primary school kids can easily engage in. Parents can look for age-appropriate arts activities that meet the grade school-aged child's developmental level and interests.

ART & CRAFTS are fun for children and the young -at heart! These art & craft activities cover a wide range of subjects for young artists , future artisanal book makers, potential puppeteers , and more. These aren't just art and crafts for kids ; they're fun for the whole family too! Our selection of art projects for kids.

## PERSONALITY DEVELOPMENT:

The development of the beliefs, moods and behaviors that differentiate among people. The concept of personality refers to the profile of stable beliefs moods and behaviors that differentiate among children who live in a particular society.

## DANCE CLASSES:

Students learn basic motor skills as they learn new dance movements, gaining improved balance , coordination and confidence in the process . Our positive instructors help the students learn socialization skills along with the ability to focus in a classroom environment. These fun and energetic programs will help students discover a class subject that most interests them.

## YOGA CLASSES:

Yoga with children offers many possibilities to exchange wisdom, share good times and lay the foundation for a lifelong practice that will continue to deepen. Children derive enormous benefits from Yoga. Physically, it enhances their flexibility, strength coordination and body awareness. Yoga brings that marvelous inner light that all children have to the surface

## SINGING CLASSES:

Kids make great music.....It is an innovative, dynamic music education program using games , movement and creative teaching to enhance learning and make it FUN! Small classes ensure that your child receives individualized instruction as well as benefitting from healthy interaction with other children..

## Moral Education

Moral education means an ethical education to follow the good and right principles of life. It consists of some basic principles, like truthfulness, honesty, charity, hospitality, tolerance, love, kindness and sympathy. Moral education makes one perfect. Education is not aimed at obtaining only a degree. Moral education can be imparted in a better way by examples and not by precepts.

## Abacus

Abacus consists of a series of rods fixed to a base and a collection of beads of different colors. Abacus is very useful to teach your child - counting, addition and subtraction. It uses objects (beads) for counting, adding and subtracting, making it easier for the child to understand.

## Vedic Maths

Better Calculation Skills.

Better logical and analytical skills.

Phobia of mathematics is erased.

Reduces finger counting & scratch work & improve mental calculation.

Improves concentration.

## Writing Improvement

Writing skills are an important part of communication. Good writing skills allow you to communicate your message with clarity and ease to a far larger audience than through face-to-face or telephone conversations.

## Brain Activity

Brain-based learning refers to teaching methods, lesson designs, and school programs that are based on the latest scientific research about how the brain learns, including such factors as cognitive development - how students learn differently as they age, grow, and mature socially, emotionally, and cognitively.

## Animations Classes (Visual Basic Classic)

Since Visual Basic is easy to learn and fast to write code with, it's sometimes used to prototype an application that will later be written in a more difficult but efficient language. Visual Basic is also widely used to write working programs.

## OUR DETERMINATION

To establish the best educational ambience.

There are no shortcuts to any place where you want to build your dream.

Children are great learners, so we should give them chance to grow their self.

To ignite the competitive zeal among the students.
